

Description:

VSS-111

- * Is the VSS system main unit.
- * Has built-in system amplifier
- * Has inputs for four (4) VSS-222 microphones
- * Has built-in loudspeaker with manual volume control of listening level
- * Has manual dimmer control for LEDs
- * Has input for remote muting of the amplifier circuitry when the vessel's own typhone is activated
- * Has squelch function. Adjustable muting of undesirable sound sources.

Technical data:

Dimensions (WxHxD):	280 x 140 x 90
Mounting:	Flush with four 4mm screws
Weight:	Approx 1.0 Kg
Housing:	Anodized aluminium
Colour:	Black
IP-rating:	IP-44
Cable entry:	Without glands
Connections:	Screw terminals
Operation voltage:	24V DC
Frequency range:	70 - 820 Hz
S/N ratio:	> 60dB
THD-N:	> 1%
Certificates:	Bureau Veritas No.10754/A0 BV DNV No.A-7886 w/ supplementary EMC and environmental testing Report No. 2003-3124 Rev.01 RINA No.ELE/108300/2

Document no.	VSS-111_ds rev.03 2004.09.06
Article no.	VSS-111
